

An aerial photograph of a desert camp. In the foreground, several large, tan-colored tents are set up on a sandy surface. To the left, there are several brown shipping containers stacked together. In the background, a large, multi-story building with a central arched entrance is visible. The surrounding area is flat and arid, with some sparse vegetation and a few small trees. A blue rectangular overlay is positioned in the center of the image, containing the text "LANCO GROUP" in white.

KEY BENEFITS:

Modular. Easy to connect to make larger, multipurpose configurations.

Easy to install. No special tools required for framework setup.

Customized. Different sizes and configurations with both open and closed systems.

Easy logistics. Low weight and volume. Can fit in trailers, containers or similar.

High capacity. Modular and efficient solutions that utilize the space to a maximum.

Inflatable Tents – High Pressure

Rapid 500 Series | Rapid 600 Series

Key Features:

- Operational within minutes
- Spacious layouts
- Inter-connectable
- Connectable to containers, buildings and vehicles
- Minimum logistic support required
- Simple maintenance in field operations

LANCO
GROUP

PROFESSIONAL PROTECTION
TECHNOLOGIES FOR PEOPLE

Inflatable Tents – Low Pressure

ARZ | AZF | AZF 6

Used in:

- Mass casualties, triage
- Field hospitals and camps
- First aid posts
- Command posts, RaDome
- Decontamination and hazardous goods ops
- Accommodation and catering
- Weatherproof shelter for sensitive equipment and workshops

Exoskeleton Tents

RDT 18· 36· 54 | RDT S18· S36· S54· S70 | RDT S6203· 6· 9· 12

Key features:

- Rapid deployment (10 min. setup time)
- 2-5 persons for setup (depending on tent size)
- Snow loads -> up to 50 kg
- Wind resistance -> up to 130 km/h

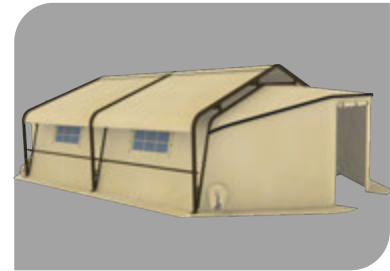

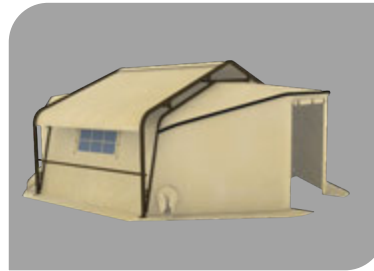

Long Term Shelter Structures

Key features:

- Spacious model, modular design
- Slide-in -and out aluminum structure
- Integrated cable ducts
- Smart logistics
- Snow loads of up to 100 kg
- Multiple use and high comfort

Innova

TECHNOLOGIES FOR PEOPLE

Decontamination Systems

LANCO
GROUP
PROFESSIONAL PROTECTION
TECHNOLOGIES FOR PEOPLE

Personal DECON | Mass DECON | Water Management

Key Features:

- Readily available (1 min.)
- Inflatable frames
- Double-sided PVC coated polyester fabric
- Watertight, mildew resistant, with anti-slip embossing

CBRN- COLPRO

COLPRO Shelter | Air Filtration Units | Airlocks | HVAC ECUs

Key Features:

- COLPRO environments can be created in all our shelters
- Airlocks can be fitted with decon systems
- Custom designed CCAs and TFAs

LANCO
GROUP

PROFESSIONAL PROTECTION
TECHNOLOGIES FOR PEOPLE

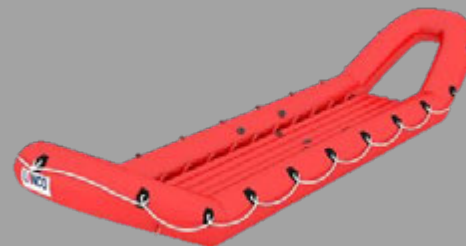

Rescue Boats

Ice Rescue Boat

Key Features:

- Fast setup time
- Air chambers inflate at the same time
- Length: 4.67 m
- Width: 1.12 m
- Buoyancy: > 900+ kg

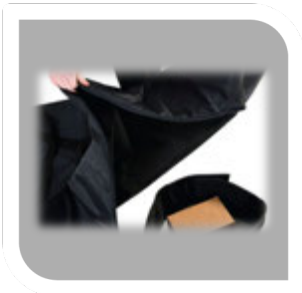

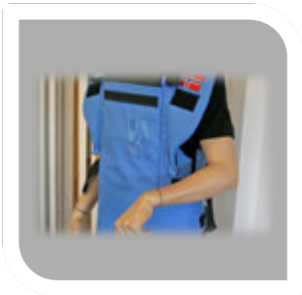

Ballistic/Demining Protection

Ballistic Blankets | Demining PPE | Ballistic PPE | Bomb Blankets

Key Features:

- Light weight
- Maximum protection, flexibility & comfort
- Enhanced ventilation efficiency
- Improved vision

R&D Team-> Tailored Solutions

Research & Development

We continuously innovate and develop our products.

Mapping

- Document & analyze current solutions performance

Interaction

- Work together with customers & end users

Innovation

- Expand & improve our range of solutions

Tailored Solutions

We design & manufacture shelter structures and completely configured base camps that work seamlessly with our integrated power generation, heating and cooling, and protective air filtration systems to make them functional and safe.

• Optimal use of energy and materials

• Lower transportation costs

You tell us what your needs are

Our team designs & proposes the optimal solution

Our production units manufacture & we deliver

Our Customers

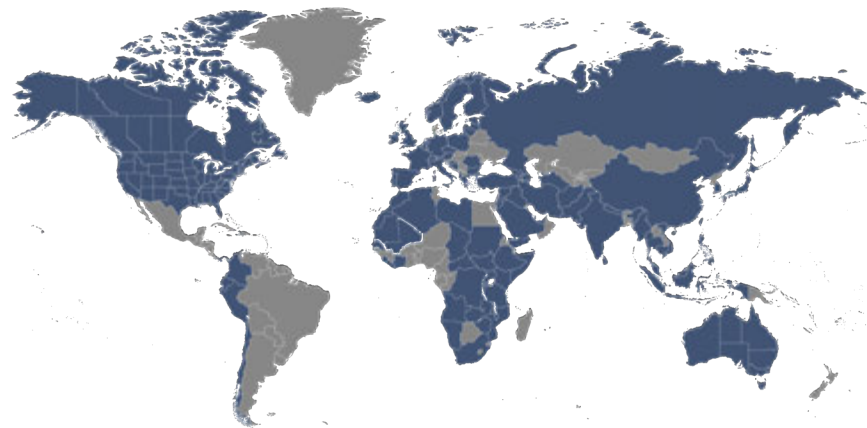

- UN Agencies

- NGOs/Humanitarian Organizations

- Defense Market

- Emergency Response Units

- Civil Defense
